

DSL0215 Seated Dip

DISCOVERY SERIES PIN SELECTED LINE

Like every piece of equipment in our Discovery Series Pin Selected Line, the DSL0215 Seated Dip adds value to your facility by combining essential performance and durability with thoughtful design to deliver an exerciser experience that feels natural.

The unique linear motion path of the Discovery Series Pin Selected Seated Dip, achieved through narrow and wide handle positions, encourages a targeted workout and correct exercise movement.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase decision with confidence. With a full range of products that are approachable and intuitive, perform for exercisers of all ability levels, and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

Seated Dip
DISCOVERY SERIES PIN SELECTED LINE

Product Features

1. Rotating Handles

Rotating handles provide the exerciser with narrow and wide hand positions that ensure a targeted workout and correct exercise movement.

2. Forward-Angled Seat Back

The forward-angled seat back helps keep the exerciser secure, resulting in a more effective workout.

3. Linear Bearings

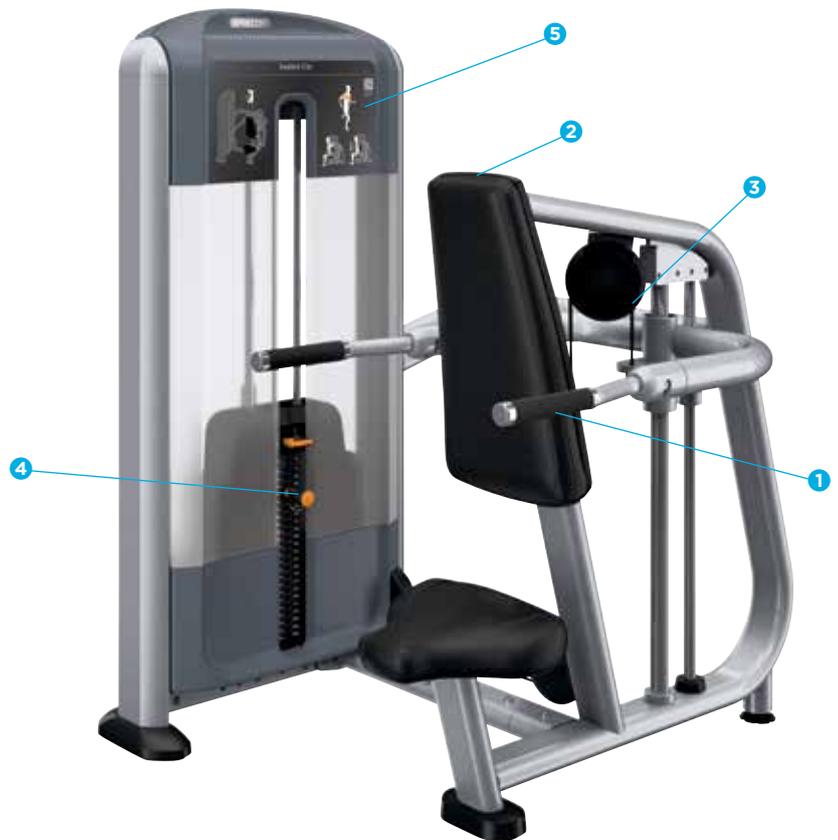

Industrial-grade linear bearings allow for smooth operation of the movement arm and ensure a long-lasting, solid performance.

4. Weight Tower, Shroud, and Weight Stack

The open and inviting design allows exercisers to easily access the weight stack selector pin and add-on weight lever. The 2.3 kg add-on weight can be engaged with a simple flip of the lever to increase the load. The shroud cap is secured with three fasteners for easy access and maintenance, and the smaller diameter cables are flexible enough to stand up to the rigors of the facility floor.

5. Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.
