

## DSL0621 Outer Thigh

DISCOVERY SERIES PIN SELECTED LINE

Like every piece of equipment in our Discovery Series Pin Selected Line, the DSL0621 Outer Thigh adds value to your facility by combining essential performance and durability with thoughtful design to deliver an exerciser experience that feels natural.

On the Discovery Series Pin Selected Outer Thigh, the exerciser faces inward toward the shrouded weight stack for privacy. An easy-to-operate adjustable start position and a slightly reclined back position for comfort and stabilization deliver a positive experience between the exerciser and the equipment.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase decision with confidence. With a full range of products that are approachable and intuitive, perform for exercisers of all ability levels, and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

## Product Features

### 1. Angled Back Pad

The slightly reclined back pad angle provides increased comfort and stabilization for the exerciser.

### 2. Start Position Adjustment

The gas-assisted seat adjustment allows exercisers to get the right fit for their body.

### 3. Foot Bars

Exercisers can rest their feet on the foot bars during the workout for additional support.

### 4. Weight Tower, Shroud, and Weight Stack

The open and inviting design allows exercisers to easily access the weight stack selector pin and add-on weight lever. The 2.3 kg add-on weight can be engaged with a simple flip of the lever to increase the load. The shroud cap is secured with three fasteners for easy access and maintenance, and the smaller diameter cables are flexible enough to stand up to the rigors of the facility floor.

### 5. Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.
