# 9.35 TREADMILL

## The Perfect Balance of Absorption and Support

Precor creates a smooth and natural running motion with our patented Ground Effects® Impact Control System. This same system is used on our commercial equipment and uses precisely engineered shock dissipating structures at the front of the deck to cushion impact where your foot lands. At the same time, the treadmill creates a solid surface at the rear of the deck to give you a stable and perfectly horizontal surface for an easy push off, reducing fatigue and joint stress. This technology also gives a nearly identical percentage of shock absorption to exercisers of different weights.

Exclusive to Precor, Integrated Footplant Technology™ continuously monitors the motor (400x / sec @ 7 mph) and instantaneously adjusts the belt speed to match the slowing and accelerating natural movement of your foot with each stride. This split-second belt speed adjustment reduces joint pain and helps prevent injury.

**PRECOR®**

# 9.35 TREADMILL

The 9.35 Treadmill is our top-of-the-line treadmill with all that you need whether you walk or run. With more preset workouts, User IDs for convenience, customization and the ability to run against yourself and challenge your best time, the 9.35 provides the most variety and motivation of all our treadmills.

## PRODUCT HIGHLIGHTS

- 1 Heart Rate Monitoring** Maximize your workout results with touch sensor and wireless heart rate monitoring. Polar® chest strap transmitter included or use any compatible 5 KHZ wireless heart rate transmitter.
- 2 Preset Workouts** Preset workouts designed by a leading fitness institute let you personalize your workouts to your fitness goals, add variety and stay challenged.
- 3 Ground Effects® Impact Control System** Precisely engineered shock absorbers at the front of the deck cushion impact where your foot lands. At the same time, the rear of the deck is more rigid to give you a stable surface for an easy push off.
- 4 Integrated Footplant Technology™** The treadmill continuously monitors the motor and instantaneously adjusts the belt speed to match the slowing and accelerating natural movement of your foot with each stride. These split-second belt speed adjustments reduce joint pain and help to prevent injury.
- 5 3.0 HP Motor and 100% Maintenance Free Design** Powerful 3.0 HP continuous duty motor runs cool and quiet providing plenty of power and torque when you want it--such as during interval training when you need to speed up or slow down quickly. 100% maintenance free design means you won't need periodic service calls.

## PRODUCT SPECIFICATIONS

- Shock Absorption:** Ground Effects® Impact Control System
- Stride Support:** Integrated Footplant Technology™
- Handlebars:** Full Length
- Heart Rate Monitoring:** Touch sensor and with any Polar® compatible 5 KHZ chest strap transmitter
- SmartRate®:** Yes
- Speed Range:** 0.5 to 12 mph / 0.8 to 19.3 kph
- Deck Elevation Range:** 2% decline to 15% incline
- Number of User IDs:** 4
- Preset Workouts:** 23 + 2 Custom
- Belt Specifications:** Maintenance free, dry silicon lubrication, 22" W x 56" L  
56 cm W x 142 cm L
- Deck:** Phenolic laminated fiberboard, 1" / 2.54 cm thick, reversible
- Equipment Dimensions:** 79" L x 34" W x 56" H  
204 cm L x 86 cm W x 142 cm
- Equipment Weight:** 335 lbs / 152 kg
- Power:** Plug in, 120 VAC 50 / 60 Hz
- Warranty:** Lifetime frame and welds;  
10-year parts and wear items;  
1-year labor.
